**Example: 0. believe**

#### Making a difference

You should never (0) ... (*think that something is true, or that what someone says is true*) that you are too young to make a difference to the planet. Take as an example, a 14-year-old school student from Pittsburgh in the USA, Suvir Mirchandani. Suvir was perhaps a little more environmentally(1) ... (*concerned and well-informed about a situation*) than his peers. He certainly showed initiative,(2) ... (*the fact of continuing to try to do something despite difficulties*) and innovation in his approach to reducing waste. His school, like most, produced huge numbers of worksheets,(3) ... (*small sheets of paper advertising a product or an event and given to a large number of people*) and letters home to parents. Of course, many people complained about the amount of paper that was being used, but Suvir went one step further. He wondered whether switching (4) ... (*the particular size and style of a set of letters that are used in printing, etc.*) would make a difference to the amount of ink used by the school, and he set out to discover which was the most eco-friendly one.

He looked at the five most commonly used characters in English, enlarged them, printed them onto card and cut them out. He did this in four of the common computer lettering (Garamond, Times New Roman, Century Gothic and Comic Sans). Weighing the size of each letter, he (5) ... (*used numbers to find out a total number, amount, distance, etc.*) that his school could reduce its ink (6) ... (*the act of using energy, food or materials; the amount used*) by 24% - simply by switching to the thinner letters of Garamond. He claimed that this would represent a saving of an (7) ... (*impossible or very difficult to believe*) \$21,000 per annum.

After further thought, Suvir made more ambitious **(8) ... ( *announcements that something is true, although it has not been proved* )**, estimating that a similar switch could save the US Federal Government \$136 million. His ideas **(9) ... ( *took hold of, attracted attention* )** the headlines, although further analysis **(10) ... ( *made him less confident, or made his authority gradually weaker or less effective* )** his bold statements. Many pointed out that switching to paperless communication would save both ink and paper. However, his ideas certainly succeeded in focusing attention on one small change that could make a big difference: an impressive feat for a teenager.

**Task 2**

**For items 11-20**, match the names of sites in Washington, D.C. (column 1) with their full descriptions (column 2). One description is not needed. **The first example is done for you.**
